

MEMORANDUM FOR: Under Secretary of State

Jack:

I hope this meets your problem, as we discussed it at lunch some time ago. Down to the last sub-paragraph, this is essentially the same as Ray Cline's proposal, except that I have stressed the element of political risk in the context of consultation with State.

Much the same thought comes through in para 2(b), which also leaves the basic initiative with me, which I believe is the intent of NSCID 5 as recently revised.
